SUMMARY:

Growth-oriented MERN Stack Developer with a track record of scaling full-stack applications. Leveraging expertise in React.js, Node.js, and MongoDB to deliver high-performance, user-centric solutions. Passionate about optimizing development efficiency, enhancing data-driven insights, and architecting scalable systems that drive tangible business impact.

PROJECTS :

Workasana | React.js, Node.js, Express.js, MongoDB, Bootstrap, Chart.js Jun 2026 - Jul 2026

- Designed a full-stack project management application integrating JWT authentication and bcrypt password hashing to support secure user access and role-based workflows across teams, projects, and multi-assigned tasks.
- Streamlined application state management across 8+ views using the React Context API across 4 central contexts ([User](#), [Project](#), [Task](#), [Team](#)), reducing prop drilling and enhancing UI performance.
- Built a real-time analytics dashboard for monitoring team performance while implementing advanced search, multi-criteria filtering, and custom pagination to ensure seamless, responsive data management.

SmartLead CRM | React.js, Node.js, Express.js, MongoDB, Bootstrap Apr 2026 - May 2026

- Developed an end-to-end CRM solution with full CRUD capabilities to centralize tracking and data pipelines for 40+ active leads.
- Boosted data retrieval efficiency by 30% by designing RESTful APIs with integrated real-time search, sorting, and dynamic filtering.
- Accelerated development velocity by 25% through modular, reusable React components and custom hooks, while reducing weekly manual reporting time by 3 hours using interactive Chart.js visualizations.

ModernMart E-commerce | React.js, Node.js, Express.js, MongoDB, Bootstrap Feb 2026 - Mar 2026

- Built a responsive, full-stack e-commerce web app featuring interactive product catalogs across 5+ categories with real-time search and multi-attribute filtering.
- Engineered a full-featured e-commerce system with stateful cart/wishlist management and secure end-to-end checkout, including CRUD address handling, automated invoice generation, and real-time user feedback.

TECHNICAL SKILLS:

Front-End Engineering: React.js, React Router, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Chart.js

Back-End Development: Node.js, Express.js, RESTful APIs

Database & Storage: MongoDB, Mongoose ODM

Development Utilities: Git, GitHub, Postman, VS Code

BLOGS:

[Explain Variable and Scope in](#)

June 2026 | Hashnode

EDUCATION:

FullStack Web Development Bootcamp | NeoG Camp | 2025 - Present

- Completed intensive hands-on training focused on modern full-stack web development, frontend architectures, REST API engineering, and production best practices.

Diploma in Information Technology

Government Polytechnic Srinagar Garhwal, Uttarakhand

2021 - 2024
